# ColorDesigner PLUS

Paint Matching Software

Match Paint Colors Fast

Achieving fast and accurate color matching is essential for maintaining customer satisfaction in retail paint. That's why we've developed ColorDesigner PLUS, a tailored software solution specifically for retail paint departments. When combined with X-Rite's state-of-the-art color measurement instrumentation, this complete color solution elevates any paint department to a color design center.

With ColorDesigner PLUS, the color selection process is streamlined, and waste and formulation errors are greatly reduced. Don't settle for anything less than the best. Choose ColorDesigner PLUS for your retail paint department and exceed your customers' expectations every time.

Effortless and User-Friendly

- Prevent mistakes with an easy-to-use interface and provide a hassle-free experience for both associates and customers.
- Ensure associates are always up to date with integrated training videos that provide on-site guidance.
- Deliver the software package that the store needs without any unnecessary additional features, with configuration determined at headquarters or at time of installation.

Color Creation: Streamline Your Design Process

- Eliminate the need for a separate computer and application, saving valuable counter space.
- Manage and control dispensers from a single, easy-to-use, and affordable software system.
- Reduce error and unnecessary steps with an optional bar code scanner.
- Automatically update the entire store network to ensure accurate and consistent color matches with the latest data.
